

Navy Update – Controlling PSC Costs by Implementing Business Plans

CAPT Mike Dinneen

Connecting the Dots

- Does it matter?
 - How are you going to do it?
 - What are your measures?
 - Where is the accountability?
 - Keeping the focus.
-

Strategy

- Set BUMED Guidance - Incentive
 - Focus on 9 Critical Elements in Business Plans – How to do it.
 - Build and approve business plans, set performance goals. – Establish Contract
 - Monitor Performance - Accountability
 - Make Assist Visits – Show you care.
 - Change
 - Alter Mission of Med IG – Make it stick
-

Linking the BBPT to the Opsut Production Plan and the MTF Financial Plan (APF)

Nine Required Initiatives

- Manage Network Care and Referrals
 - Improve Access to Care
 - Improve Provider Productivity
 - Improve Documented Clinical Productivity and Workload Data Quality
 - Improve Expense Reporting and Quality of Resource Data
 - Institute Evidence Based Medicine
 - Achieve Organizational Alignment
 - Improve Contingency Planning
 - Manage Pharmacy Expenses
-

**Linking Dashboard Metrics to Required Initiatives -
Maximizing the impact of focused improvement!**

Major Deployment

NMCP Manages Network Expenses by Reducing the Number of Referrals to the Network

NHCP Pediatrics improves patient access: 3rd Next Available Appointment All Providers

NH Pensacola Improves Reported Productivity through attention to Value of Care Capture Processes

I have shared this information with ECMS and the ESC. I think that this helps prove what we have said all along - it's not our productivity we need to increase, it's our documentation. We need to make sure we are getting accurate credit for the work we do. I think a 25 to 30% increase in RVU capture over a three month period is something we should be proud of. Let's keep up the good work.

A. Findley
Chair, ECMS
